A beautiful healthy lawn is one step away! Call/text/email us today.

501-416-7314

## OUR MISSION

To provide the most complete lawn care program possible by combining the best fertilization and weed control with disease and insect protection at a reasonable price.

## OUR METHOD

**Fertilization & weed control**-To deliver the appropriate nutrients at the proper time of year while keeping your lawn weed free.

**Soil health**- Aerating your lawn, balancing your soils PH and charging the soil with organic probiotics introducing over 800 species of microbes for optimal growing condition.

**Disease control**- using curative and preventative measures to combat the most common turf diseases that ruin Arkansas lawns

**Insect control**- controlling the populations of insects that are dangerous to your turf as well as the ones dangerous to you pets and loved ones

## Resulting in the following:

Being able to enjoy the outside again with vibrant gardens, a lush weed free lawn that you can enjoy without pests such as fire ants, fleas, ticks and even mosquitos!
